### Taylors Dept Store.

L. A. Brown & Co., yesterday sold the 40 acres east of town, known as the "Mill 40" for Alf. Rector to W. M. Wil helm at \$1700.

Ernest Wenireich, who has been attending the Columbia Business College, came nome Saturday night to remain with his parents north of town for sooner than expected because he got sick.

# pay the highest market prices.

A very unfortunate occurrence took place northeast of Napton Sunday night but for certain reasons and requests toe press of Marshall has agreed not to give particulars this week.

W. V. Weinreich, of north started to move B. F. Naylor's place. He took out s veral the part of tplaint if with Mrs. 8loads and then stopped for some reason, although Mr. Naylor would no doubt be pleased to have him keep the good work up.

#### See Spangler & Evans for Wall paper. (Mar.)

W. C. Reed, of LaMonte, friends goodbye before starting for his new home in Stratheona, Canada, where he and his sons have taken cianns. The sons have been there a year and like it very much. We regret to see Mr. Reed leave this country, but he will keep up with Saline county affairs by reading the Re- GENERAL AUCTIONEER, publican and we hope he wil see fit to return some day.

### Come to Taylors Depart-Store and let us "Show You" the many bargains we are offering.

Sait cleanses the palate and furred tongue, and a gargle of salt and water is often efficacious. A pinch of salt on the tongue followed ten minutes after by a drink of cold water often cures the sick headache. Salf hardens the gums, makes the teeth white and sweetens the breath. Salt water and alcohol in solution should be used for rubbing weak ankles. Salt in warm water, if used for bathing tired eyes, will be found very refreshing.

### Spring Here

L. F. Leyhe, the clothier, says spring is sure here, because it always arrives right after he puts on his spring hat. He has shown his confidence in the sign enough to advertise his spring goods.

### For Sale

Pure bred Rhode Island Red Eggs. Mrs. Frank Evans. Phone 304. 881 W. Jackson. (Mar.)

### Strength of Wet Grindstones.

Tests seem to indicate, states Iron Age, that the atrength of a grindstone is considerably reduced when it is wet. The wetting not only decreases the tensile strength of the material, but it dds weight and thus augments the centrifugal pull at a given peripheral speed. The reduction of strength appears to be as much as 40 or 50 per

### Fatal Thirteen.

Near Bloomsburg, Pa., during an electrical storm, a cow owned by Frank Giger, one of a herd of thirteen standing in the barnyard, was struck by lightning and killed.

A bar of lead cooled to a point about 300 degrees. Pahranheit below zero, according to the experiments of an official of the Smithsonian institution, gives out when struck a mesona-tone. Solid feed mercury, at the same temperature is also resonant, while a coll of majoration wire vibrates like a steel spring.

The a most thing for the man who make at the corns on his hands to re-member that on Many street the corns are on the heart.

### A CHINESE BETROTHAL

The following amusing description linese bethothal is given in "Whon ods Dishonor," in Young's Mag-Gods Dishonor,"

for August.
It was evening, the hour of repose

A long procession halted before door of A-Pow-Tachi-San's house. It was formed of sixty-two mandarins, rela-tives of Yan-Ko-Zan. Behind them came

was formed of May-two was formed of Yan-Ko-Zan. Behind them came their wives borne in palanquins, then their children in tears. All carried lanterns of various colors: in the roar came an immense crowd of the curious.

Passing through the oval opening in the wall, they struck upon the gong, and when the master of the house appeared, they demanded of him:

"What has Yan-Ko-Zan done to thee: He who is the most learned of the young people of China, the ornament and pridof our country."

A-Pow-Tselit-San bowed profounds and thrice, as must the ignorant in preyence of the wise. He answered:

I respect deeply the knowledge of the young Yan-Ko-Zan; there is no pleasure so great as to hear the recital of his good actions and his great deeds."

Again the relatives of Yan-Ko-Zan agked.

"Why then, dost thou torment young man? Why seekest thou his struction?"

And when A-Pow-Tschi-San had expressed the required surprise, they explained to him what was meant.
"In thy garden, O favored of heaven, there grows a flower desired by the young Yan-Ko-Zan. The perfume of that flower, spreading throughout the hand has reached his senses and polsoned his young blood. He lacks strength; death is near! His old mother has just sent for the cherished fruit of her heart. We hope thou with have compassion on this young then wilt have compassion on this young man and permit him to gather the flow-er that attracts him!"

A-Pow-Tschi-San compressed his head between his hands as a sign of profound

What terrible misfortune!" he cried.
"What a frightful coincidence! This
beautiful flower uself is about to perish,
and for love of a youth. You come to me when I am plunged in grief and when all is now ready for the funeral of Kouar-Mow-Sian."

"The name of the culprit?" cried the

A-Pow-Fachi-San, in sign of fear bowed to the earth and answered:

At the mention of this name, the livil-est my replaced their grief. The friends of Yan-Ko-Zan shouted for happiness; the musicians came forward, followed by the crowd, and dancing and feasiing be-gan in honor of the lovers.

### BEAUTY HINTS.

By Norma Williams.

Hang nalls are possibly caused by the you cut them too deeply there is nothing to support the firsh of the finger, and h covers the r il while growing; turns to eave sufficient nall to prevent the grow ing over, and there will be no hang rails I'se sharp nall scissors and cut the hang nails without making it sore in the least and keep it "lipped as it grows; never pull it out. " warm vaseline for the nails." hasty travel (though we enjoy traveling

A Nice Neck.—A neck needs as much care and attention to keep in good condition as the face. You cannot expect to make it white, remove the lines and fill out the hollows in a few days, when you have neglected it all winter. It should be massaged regularly at least once a day before r tiring with a good massage cream, and rubbed up with a rotary motion. The nucles at the side of the neck may be developed by turning the head on the axis of the spine slowly from right to left and back again. Sponging in cold water will aid in keeping the neck firm.

Sharp Elbows.-Wash and scrub the elbows with a fresh brush and a good tollet soap; riose and wipe dry, then fill the palms of the hands with cucumbe-cold cream and rub the elbows with a cir-cular motion, holding each in the palm of the opposite hand. Do that night morning and you will note a change for the better in a couple of weeks.

Cucumber Cosmetics.— Slice without pecling four large cucumbers, add a cupful of water; boil until soft, cool and strain. To one and one-half ounces of juice add equal portion of alcohol and one-fourth ounce powdered castile soaplet stand over night, add eight ounces of cucumber juice, one ounce of oil of sweet almonds ,20 drops of theture of benzoin and a pinch of boric acid. Shake well. Apply twice a day with a sponge.

Harmiess Freckle Remedy.—So many of the freckle removers are very polsonous and are really dangerous to use. For your little girls who have gotten freckled this summer, the solution of lemon and sugar would be very good. Use juice of a lemon in which there is as much sugar dissolved as the juice will hold in solution, it should be applied with a camel-hair brush several times daily.

How to Brush the Hair—There is a right and a wrong way of brushing the heir, as there is of doing everything else. First part down the renter above the forehead, and give it 20, brisk strokes on either side. Divide it down the back and repeat the same process. Next brush it hack from the ears, giving it always the 26 strokes. Persevere with this treatment, and your hair will soon lecome soft and glossy and repay the trouble in-ken with it.

### VALUE OF RAIN WATER.

The value of rain water—the purest water met with under ordinary circumstances is rain water, which is certainly a great luxury, to those in towns, for washing. If it were fully approxiated how valuable rain water really is, the dwellers in our large towns would see that it was not always load. It is free from the hardess which characterises spring water, feels soft to the hands, forms a beautiful lather, and agrees well with the skin.

Strawberry Ica Cream Mash two pi of Strawberries and one pint of sugar gether, let them stand two hours. To ub through a strainer into a quart tream and freeze.
